

# FLIP SCREENING

PORTABLE. PRODUCTIVE. PROFITABLE.

## S10 FLIP SCREEN

The S10 Flip Screen is ideal for any type of recycling or recovery process where materials must be separated and screened to different sizes – the perfect attachment for the construction, demolition, landscaping, contracting, earthmoving and waste recycling industries.

With no shaking, vibrating or internal moving parts the S10 Flip Screen is your portable, durable and reliable screening solution. The super high tensile meshes for the S10 Skid Steer Flip Screen range from 1/4" to 12" (6mm to 300mm) and are changed with no tools by one person in just 4 minutes, allowing you to easily screen different sizes of aggregates efficiently with no hassle. Your skid steer does not need high-flow and installation is a quick and easy process.

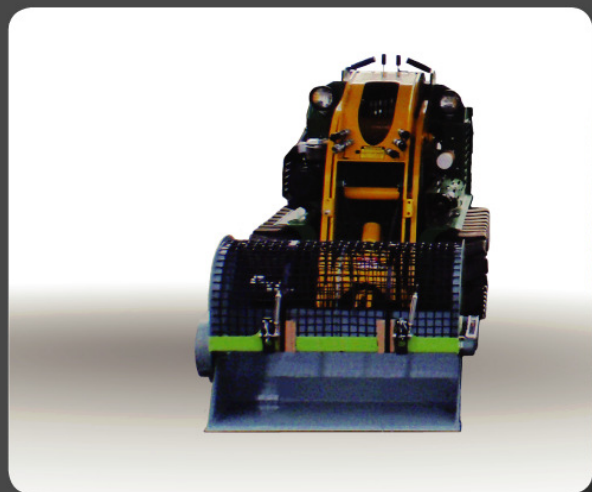

The S10 Flip Screen is built with high tensile steel for the toughest conditions and is fitted with two high capacity, high quality motors for maximum torque - allowing it to screen just about anything you can scoop up. Its compact design means you can take it to any site to create useable or saleable product from waste and slash your dump fees.

With its portability, productivity, strength and versatility - the S10 Flip Screen is one of the most indispensable attachments you will ever fit to your skid steer.
